

ARK Investment Management is hiring a **Cryptoasset Analyst**

Who We Are:

ARK is an investment manager focused solely on disruptive innovation that is changing the way the world works. Our investment strategies, including a suite of exchange traded funds (ETFs), mutual funds, and separately managed accounts, are backed by an open research ecosystem designed to identify innovations with the potential for exponential growth. As of October 31st, 2017, the firm manages over \$2 billion assets.

Since its founding in 2014 ARK has established itself as a long-term proponent of cryptoassets and thought leader in the space. In September 2015, after performing over a year of research and due diligence on the asset, ARK became the first public fund manager to invest in bitcoin through the Grayscale Bitcoin Investment Trust. Our research focus has since expanded to encompass all cryptoassets, exploring a variety of business development opportunities.

If you want to learn more, visit our [“Philosophy”](#) page to understand how ARK differs from traditional investment firms. We also encourage you to meet the [ARK team](#) and watch our video to get an idea of ARK’s culture.

What You’ll Do:

As cryptoasset markets continue to evolve, we expect you to lead our research and business development efforts within this fast moving space. The position requires you to have an existing expertise in cryptoasset markets, including knowledge of the assets, crypto economics, and blockchain technologies, as well as traditional financial services experience. This position will be a combination of ideating and implementing product roadmaps and researching, writing, and engaging on social media.

Responsibilities:

- Plan, lead, and problem solve around cryptoasset business development efforts within the financial services industry.
- Perform and model original research, pertaining to companies, products, and markets.
- Form recommendations to share with the portfolio manager and guide new initiatives.
- Join conferences and meet with experts in a variety of fields to discuss the future of cryptoassets and blockchain technology.
- Author articles, whitepapers, and other content to share your research with the world.
- Engage with relevant communities through Twitter and other online platforms.

Who You Are:

- An established, comprehensive, and authoritative thought leader on cryptoassets and blockchain technology.
- You have experience in the traditional financial services industry.
- A crisp and engaging writer – you will need to submit a sample research piece.
- An original thinker – you see how things will unfold ahead of the crowd.
- A lifetime learner – you consider learning to be the reward. You enjoy mastering a new field.

INNOVATION IS KEY TO GROWTH

- Comfortable with complexity – you absorb complex ideas quickly and easily separate the things that matter from the things that don't.
- You view the world through both a technical and financial lens. You enjoy finding not just great technologies, but great investment opportunities.
- Your confidence is balanced by a sense of humility. You're more interested in figuring out what's right than being right.
- You enjoy working as part of a high-performance team. You want to contribute and build the team's culture.
- You are proficient in Microsoft Excel.

There is much more to share, so if you feel excited after reading the above, please email your resume and a brief cover letter to James Wang (jwang@ark-invest.com).
